### A flight

Airports are crazy places. Generally, they're exceptionally busy, and the larger ones can be quite big and confusing when you take a flight somewhere.

First of all, you need to be at the airport an hour before your flight is due\*. Then you need to \_\_\_\_\_ for your flight with your ticket and go through a \_\_\_\_\_. After that you hand over any luggage that is too big to take on board and you also have to pass through the airport \_\_\_\_\_ to the departures hall. There you will wait some time, find your boarding \_\_\_\_\_ and board your airliner. Remember to have your boarding pass at hand.

After boarding the plane, you need to find your place and put your hand luggage into the \_\_\_\_\_. You should book a ticket for a(n) \_\_\_\_\_ if you want to enjoy the views through the plane window. Otherwise, if you are afraid of flying, you definitely need to take a(n) \_\_\_\_\_. Before the plane takes off, a(n) \_\_\_\_\_ informs all the passengers about the scenario to follow in dangerous situations, including how to use a(n) \_\_\_\_\_. A basic rule is that passengers cannot enter the \_\_\_\_\_ in any case. Between the seat rows there is a(n) aisle where the attendants usually push a(n) \_\_\_\_\_ during the journey, offering snacks and refreshments. Yes, flights may be more comfy than buses.

Once arriving at your destination, you leave the board and pick up your bags from the \_\_\_\_\_ at the \_\_\_\_\_. Before you leave the airport, you might want to purchase some souvenirs for your family. You can do it at one of the duty-free shops still in the arrival hall. There you will find anything from cosmetics through food and drink specialities to toys and clothing. However, these all are likely to get cheaper outside the airport.
