Test Yourself

Smart Mathematician

① Analyze the problem and draw hands on the clocks to show the correct departure and arrival time of the plane.

A plane takes off at 7:30.
The flight lasts three and a half hours.
What time does the plane arrive at its destination?

Departure time

Arrival time

Wise Citizen

② Use an "x" to mark the characteristics of a temperate climate.

- [ ] There are different seasons throughout the year.
- [ ] Regions with temperate climate are located between the tropics and the polar circles.
- [ ] The average temperature in temperate regions is 10° below zero.
- [ ] Most of the world's population lives in temperate regions.
- [ ] Temperate regions show three types of climates: oceanic, continental, and Mediterranean.
- [ ] Winters are long and extremely dry.

③ Look at the image and write which climate it represents.

Curious Scientist

④ Circle the tips that won't help you to avoid infections or getting sick.

1. Take out a fruit from the fridge and eat it right away.
2. Wash hands with soap and water before eating.
3. Wash fruits and vegetables before peeling them.
4. Pick up food from the ground and eat it.
5. Share ice cream with a pet.
6. Wash some fruits, like strawberries, more carefully because they grow close to the ground.
7. Wash your hands after going to the bathroom.

Creative Artist

⑤ Answer the questions.

1. What is the type of rhythm created by mixing two or more shapes?
2. Draw an example of the rhythm identified in the last question.
3. What famous painting by Van Gogh uses sequences and rhythms to create an effect of movement?
