## Shopping online

When you are shopping online, first you go to the <sup>1</sup>website. The first time you use a site, you usually have to **create** an <sup>2</sup>\_\_\_\_\_ where you give your personal information. You then choose what you want to buy and **click on** each <sup>3</sup>\_\_\_\_\_. If you are buying clothes, make sure you get the right <sup>4</sup>\_\_\_\_\_. Everything you buy goes into your **shopping bag** or <sup>5</sup>\_\_\_\_\_, usually at the top right of the page. When you are ready to pay you click on "**proceed** to <sup>6</sup>\_\_\_\_\_." You then have to give your <sup>7</sup>\_\_\_\_\_ **address** where you want them to send your things and give your <sup>8</sup>\_\_\_\_\_ **information**, for example your credit card number and expiration date. Many people today also buy and sell things online at <sup>9</sup>\_\_\_\_\_ **sites** like eBay.
