

Its warm up TIME! Let's go... Sweat those Brain Cells

Answer the following questions below.

Discounts and Taxes

1. Shop A has discounted the following items by 70%. Calculate the discount of these items.

- a) Samsung cell phone for \$1240.00

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}} = \underline{\hspace{1cm}} = \$$$

$$\$ \underline{\hspace{1cm}} - \$ \underline{\hspace{1cm}} = \$ \underline{\hspace{1cm}}$$

- b) Tablet for \$945

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}} = \$$$

$$\$ \underline{\hspace{1cm}} - \$ \underline{\hspace{1cm}} = \$ \underline{\hspace{1cm}}$$

2. Calculate the tax of the items if tax is for 12%.

- a) Samsung cell phone

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}} = \$$$

$$\$ \underline{\hspace{1cm}} + \$ \underline{\hspace{1cm}} = \$ \underline{\hspace{1cm}}$$

- b) Tablet

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}} = \$$$

$$\$ \underline{\hspace{1cm}} + \$ \underline{\hspace{1cm}} = \$ \underline{\hspace{1cm}}$$
