Doubles Addition

Use the to model. Complete the addition number sentence.

[2]

 $\underline{\quad} + \underline{\quad} = \underline{\quad}$	 $\underline{\quad} + \underline{\quad} = \underline{\quad}$
 $\underline{\quad} + \underline{\quad} = \underline{\quad}$	 $\underline{\quad} + \underline{\quad} = \underline{\quad}$

Add to find the sum. Select the doubles facts. [6]

$$\begin{array}{r} 4 \\ + 4 \\ \hline \end{array} \quad \begin{array}{r} 5 \\ + 0 \\ \hline \end{array} \quad \begin{array}{r} 7 \\ + 7 \\ \hline \end{array} \quad \begin{array}{r} 0 \\ + 9 \\ \hline \end{array}$$

Raj and Sam have 6  in all. Raj have 3 . How many  does Sam have? [1]

$$\begin{array}{r} 3 \\ + \underline{\quad} \\ \hline 6 \end{array}$$

There were **five** frogs on the log. Then **five** more frogs came and sat on the log. How many frogs were there altogether?
Use the signs to complete the sentence. [2]

[2] $= +$

$$\underline{\quad} \bigcirc \underline{\quad} \bigcirc \underline{\quad}$$
