LIVEWORKSHEETS

Now look at the map again and answer the following questions:

- What is the first section you see when you go into a car workshop?

  _____

- And the last one, when you leave?

  _____

- When your car has a very serious problem you have to take it to the _____ _____ area.
- If your car has damage paintwork, mechanics take it to the _____.

Complete the text below with the parts of a garage in the box. There are some extra words.

store room	**fuel injection**	**quick**	**spray booth**
office	**car reception and diagnosis**		**changing-room**

When you arrive, you see the *car reception and diagnosis* area, where a mechanic checks your car. After a first diagnostic, they send you to the right area, according to the possible repair time: **(1)** _____, medium or long time works.

There are also specific sections for oil or tyre changing. If your car has diesel injection problems, you have to go to the **(2)** _____ area. Some garages have a **(3)** _____ for car painting and bodywork.

And every garage has got a room where staff change their clothes and keep their overalls, it is the **(4)** _____. It is also necessary to have a **(5)** _____, that is, a place for the stock of spare parts and consumables.

Finally, when you leave with your car, you find the **(6)** _____ where the accountants and cashiers work. They prepare the estimate and the invoice you have to pay.
