ENGLISH TEST

I. CHOOSE THE CORRECT ANSWER.

THE MAGIC OF PHOTOGRAPHY

Today, people see /sees photography as an ordinary part of life, but at its start in the 1800s, people think /thought it was a kind of magic. When they saw portraits, they believed that the little people inside the pictures had looked / were looking at them. To have your photograph taken in those days, you had to / have to sit without moving for up to 15 minutes. Since then, photography has developed / developed in amazing ways. First, with the invention of light, user – friendly cameras in 1963, anybody, not only professional photographers, can / could take photographs. Much later, in 1996, the digital camera was invented, making film unnecessary. Today, many people are carrying / carry a mobile phone with a camera, so that they can take photos anywhere, anytime. If we wait / will wait a few more years, we'll /'d probably see even more "magic". Perhaps one day we will be taking / will take pictures only using our eyes!
