

What's Technology?

(https://youtu.be/Giiz81_uzK8)

1. Listen and fill the gaps.

<p>Today we are going to answer the question: What is _____? When you think of technology... What do you think of? a _____?, a _____? but what about a _____ or a _____? Would you consider that technology? Let's investigate to find out (averiguar).</p>	
<p>In the dictionary, technologies are _____ created by _____ that can _____ our lives easier or _____ problems.</p>	
<p>All humans have basic _____ <i>such as</i> (tales como) getting _____ and food and having a shelter (refugio). Technology is a _____ to make this easier. Instead of going down to the lake (lago) to get water, humans _____ a way to bring it straight (directo/a) to our _____ with indoor plumbing (tuberías).</p>	
<p>Some _____ have wires (cables) and plugs (enchufes) into the wall, like _____. _____ help to _____ sound. _____ help us get information, type papers, _____ to friends and much more but...</p>	
<p>... some technologies do not have wires at all. Umbrellas help to keep us dry in the rain and the _____ helps to keep our things safe. A _____ helps us write down (anotar) information and a _____ helps us to eat food.</p>	
<p>So let's go back (volvamos) to our first _____: 'Are a chair and a _____... Technology?'</p>	

2. From the objects below choose ONLY the TECHNOLOGICAL OBJECTS.

That's all!
I hope you get to know what's a Technological Object
and
What Technology does.
