

A. 画线连一连。 (5%)

| 数目 |   | 十位近似值 |
|----|---|-------|
| 14 | → | ← 70  |
| 39 | → | ← 90  |
| 22 | → | ← 40  |
| 65 | → | ← 10  |
| 90 | → | ← 20  |

B. 加一加。 (8%)

|                                                                                    |                                                                                      |
|------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| <p>1) <math>54 + 5 =</math></p> $\begin{array}{r} 54 \\ + 5 \\ \hline \end{array}$ | <p>2) <math>26 + 30 =</math></p> $\begin{array}{r} 26 \\ + 30 \\ \hline \end{array}$ |
| <p>3) <math>58 + 7 =</math></p> $\begin{array}{r} 58 \\ + 7 \\ \hline \end{array}$ | <p>4) <math>39 + 18 =</math></p> $\begin{array}{r} 39 \\ + 18 \\ \hline \end{array}$ |

C. 减一减。(8%)

|                                                                                     |                                                                                     |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| <p>1) <math>47 - 27 =</math></p> $\begin{array}{r} 47 \\ -27 \\ \hline \end{array}$ | <p>2) <math>95 - 40 =</math></p> $\begin{array}{r} 95 \\ -40 \\ \hline \end{array}$ |
| <p>3) <math>81 - 26 =</math></p> $\begin{array}{r} 81 \\ -26 \\ \hline \end{array}$ | <p>4) <math>70 - 32 =</math></p> $\begin{array}{r} 70 \\ -32 \\ \hline \end{array}$ |

D. 根据涂黑部分，把正确的分数填写在空格里。(8%)

|      |      |      |      |
|------|------|------|------|
| 四分之一 | 二分之一 | 四分之二 | 四分之三 |
|------|------|------|------|

E. 连一连。( 4%)

|                                                                                   |                                                                                   |                                                                                   |                                                                                    |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
|  |  |  |  |
| *                                                                                 | *                                                                                 | *                                                                                 | *                                                                                  |
| *                                                                                 | *                                                                                 | *                                                                                 | *                                                                                  |
| 50sen                                                                             | RM10                                                                              | 20sen                                                                             | RM5                                                                                |

F. 写出以下币值。(8%)

|                                                                                                                    |                                                                                                                |
