Remember, where is the food?:

1st-teeth, 2nd-stomach, 3rd-small intestine,

4th-large intestine, 5th-anus.

WHERE DOES FOOD GO?

We eat, process and expel food through our **digestive system**.

- ☐ The **small intestine** absorbs the nutrients.
- ☐ We chew food with our **teeth**.
- ☐ The **large intestine** takes waste to the anus.
- ☐ The waste goes out through the **anus**.
- ☐ The **stomach** breaks the food down into nutrients.
