IELTS listening Section 1 Listening tips:

Practice listening audio records:

The first IELTS listening section 1 tip is being aware of the test atmosphere. Because you are allowed to listen to audio only once, you should turn yourself to a good listener. It is possible only through practice.

Adaptability:

Practice adaptability, because you will be asked to do 2 tasks simultaneously. You should listen to the conversation, recognize the answer and write it down on the question paper. After all, it's an adaptive test.

Just like the IELTS reading test, you should use a pencil instead of a pen to write on the answer sheet.

Avoid Unanswered Questions:

Don't give a scope for unanswered questions. Note that IELTS would consider answers which are correct; you will not be penalized here. Your score will not change if you get incorrect answers. Besides, try not to leave any questions unanswered. Fill it at least through guess. Think positive.
