### Multiply and Divide by 2

Match the math vocabulary to the multiplication and division sentences by drawing a line from the square to the correct circle.

- product ■
- dividend ■
- factors ■
- symbol to multiply ■
- divisor ■
- quotient ■
- symbol to divide ■

 Each shape represents a number. See if you can find the numbers that each shape represents:

Example:  +  =  and  +  = 10

$$\star = 3 \quad \text{---} \quad \text{---} \quad \text{---}$$

$$\text{---} + \text{---} = \text{---}$$

$$\text{---} \times \text{---} = 10$$

	=	_____
	=	_____
	=	4
