

THE ATMOSPHERE

The atmosphere is all the _____ in the Earth.

1. Label the layers of the atmosphere

2. In which layer?

- ✓ Is there MORE oxygen?
- ✓ Is there LESS oxygen?
- ✓ Is where the weather occurs:
- ✓ Is where the aeroplanes fly?
- ✓ Is where the meteors, rocks and metal burn and disappear:
- ✓ Is the closest layer to the Earth:
- ✓ Is the second layer:
- ✓ Is where the ozone layer is:

3. COMPLETE

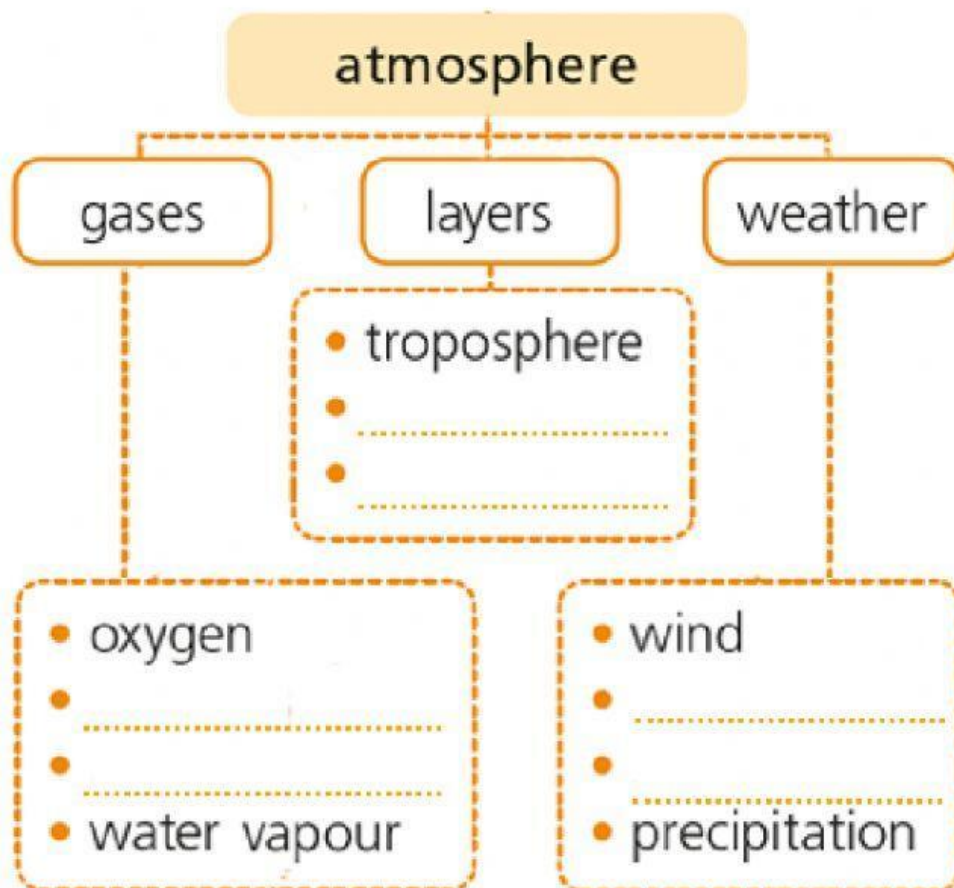

-layers-
mesosphere
protects
weather

The atmosphere is made up of different layers.

The troposphere, the closest layer to the Earth, is made up of the air we breathe.

It is also where _____ occurs. The stratosphere _____ us from the strong rays of the Sun. The _____ protects us from most of the objects that fall from space, such as meteorites.

4. COMPLETE

5. Write the correct words

- R : water that fall in drops from clouds in the sky
- G : a large body of ice
- A p : contamination in the air of harmful smoke and gases
- H : all of the Earth's water
- W v : a gas in the Earth's atmosphere

6. Write the correct word:

.....% of air in the atmosphere is oxygen

.....% of the air in the atmosphere is nitrogen

1% of the air in the atmosphere are other gases such as w.....v..... and c.....d.....
