LIVEWORKSHEETS

LEONARDO DA VINCI – A GREAT ARTIST AND SCIENTIST

The person I admire the most is Leonardo da Vinci. He was born on 15th April 1452 in the town of Vinci, Italy. His full name was Leonardo di ser Piero da Vinci, which means Leonardo, son of Piero from Vinci. He was not only one of the greatest painters of all time, but he was also an architect, sculptor, engineer, inventor, mathematician and musician.

Leonardo da Vinci was a very intelligent and imaginative man. He created many different designs. Some of them were for a bicycle, a helicopter, a parachute and even an aeroplane! He also liked to study everything in nature. You can find some of his notebooks in museums today. In them you can see drawings of plants and animals as well as detailed sketches of the human body!

Leonardo da Vinci paid a lot of attention to detail and his paintings are very realistic. The Mona Lisa, for example, is one of his best known works of art. It is a painting of a woman whose face often makes people wonder if she is smiling or not.

I admire Leonardo da Vinci for his amazing works of art and his great inventions. His artwork will last forever and people around the world admire it even today.

39. Da Vinci studied the human body. ____
40. Leonardo da Vinci designed a parachute. ____
41. Leonardo da Vinci was born in Venice, Italy. ____
