

READING COMPREHENSION

Read and Answer

Luis was excited. The new computer game he wanted was finally in stores. "I have always wanted this computer game and it has finally arrived!" he told his mum. "Can we go buy it?" "How much does it cost?" Luis's mother asked. "Thirty-five dollars," he replied.

Although his mum wanted to buy it for him, when she heard how much it was, she thought it was too expensive. Thirty-five dollars was too much money for them.

"You know, Luis, we have to spend our money carefully. We have to pay for our house and food. We need to buy clothing, books and gas for our car. Our money goes to things we need," she said.

"But I really want this game!" answered Luis. "What should I do?"

"You should use your pocket money; you get eight dollars a week for helping at home," his mum said. "Try to save it. Before long, you will have enough to pay for the game."

Luis was not convinced; he was afraid that there might not be any more games left when he had enough money to buy it.

Weeks later, Luis came home feeling very happy. "Guess what, Mum? I did what you said. I saved my money and today was my lucky day! I saw the game was on sale! I bought it for twenty-eight dollars."

"And," his mother added, "you did it with your own money!"

1. Why was Luis excited?

2. Why didn't his mother buy Luis a computer game?

3. Luis has bought the game. **TRUE** **FALSE**

4. What did Luis have to do to buy the game?

5. Luis finally paid more money for the game. **TRUE** **FALSE**
