Taj Mahal

Taj Mahal or The Taj is a well-known architectural object in India for its finest design which combine elements from India, Persian and Islamic architectural style. This historical building was built on the south bank of the Yamuna river in Agra. It represents the story of Eternal Love of the Mughal Emperor, Shah Jahan, to his dearest wife Mumtaz Mahal. In 1983 UNESCO place Taj Mahal into the list of World Heritage Site and consider it as "the jewel of Muslim art in India and one of the universally admired masterpieces of the world's heritage".

Taj Mahal is a very large tomb made of ivory-white marble. The building looks like a mosque, a place for a moslem to pray. Once we see it, we will get the impression that Islamic architectural style is very strong in the building, starting with the wall and the calligraphy decorations on it, a huge dome on top of the building along with 4 minarets on every corner of the base walls. The dome is also made of marble with size nearly 35 meters and the top of it is decorated with a lotus design. The minarets are also decorated with a very detailed lotus motif.

National Monument

The National Monument or usually called as Monas is located in Central Jakarta, Indonesia. This obelisk was built in 1961 with the purpose to commemorate the struggle and fight of the people in Indonesia to achieve their independence. It was opened to the public in 1975.

The National Monument is a rectangular tower with the height of 132 meters. The typical part of the building that became a special characteristic of it is the flame shape covered with gold foil located on the top of the tower. There is a museum at the base part of the tower with the size of 80 x 80 meters. Everyone can visit the museum to learn the history of Indonesia. There is also an amphitheater in this building called Ruang Kemerdekaan, it is located in the "cup" part of Monas and it can be reached by using spiral stairs at the north and south doors. If you go to the southern side of the building, you will find an elevator that can be used to access the top platform where we will find the observation deck and also the flame of independence.
