VII. Read the passage and choose the correct answers.

London Underground is a public transport system connecting central London and the surrounding areas. Local people often called the system by its nickname, the Tube, because of the shape of the underground tunnel. Built in 1863, it's the oldest underground transport system in the world. Consisting of only a few lines and a handful of stations in early 1900s, London Underground nowadays is made up of 270 stations and 11 lines. The total length of more than 400 kilometers makes London Underground the third longest metro system in the world. Despite the name, only 45 percent of the rail line is below the ground. London Underground is a cheap and convenient way to get around London. It's estimated that there are 4.8 million passengers using the system to get to work or go to school each day.

1. What does London Underground connect?
