

For exercises 1-6 write each ratio as a fraction in the simplest form.

For 7 and 8 reduce the fraction to the simplest form and find how many there are at one table and on one bush

1. 3 sailboats to 6 fan boats	2. 5 ducks to 30 geese
3. 6 poodles to 18 beagles	4. 10 brown eggs to 12 white eggs
5. 16 pink stripes to 20 blue stripes	6. 5 baseballs to 25 softballs
7. There are 72 people sitting at 8 tables. How many people are at 1 table?	8. There are 66 strawberries on 3 bushes. How many strawberries are on 1 bush?
