I. Read the passage and decide whether the following statements are true (T) or false (F) (2,5 pts)

Many people in America now think that teachers give students too much homework. They say that it is unnecessary for children to work at home in their free time. Moreover, they agree that most teachers do not properly plan the homework tasks they give to students. The result is that students have to repeat tasks which they have already done at school. Most people agree that homework is unfair. A student who can do his homework in a quiet and comfortable room is in a much better position than a student who does his homework in a small noisy room with the TV on.
