Hi, My name is Diego. I am eleven years old. I was born on April 17th, 2006. I am from Monterrey, Nuevo León.

I live in a nice house not far from Monterrey.

In the picture you can see my family.

I have two sisters, my parents and my grand parents.

My mother Lorena is a Teacher. She is 44 years old. She flies to different countries.

She likes her job. I like her job, too. She always bring us some presents and souvenirs.

My father Edward is an Engineer. He is a very kind man. We go to the park every Saturday.

He always plays with us and helps me with everything. I really love spending my time playing football with my father. He is the best!

Valeria is my older sister she is 14 years old, she is a nice girl. We seldom fight. But I love the way she is.

We go to the school together, but we are in a different groups. She likes riding her bike and dancing all the day.

Lorena is my younger sister she is 8 years old, she is a naughty girl, she drives me crazy when she starts dancing and singing, she looks so funny.

I enjoy playing football soccer with my friends or my father.

My grand parents are very old. My grandma is 60 years old her nickname is Cheche but her real name is María Teresa, and my grandfather is 62 years old his nickname is Gelo but his real name is Jaime Alberto.

However they are quite active. We live together in a big house. We often play hide and seek with my grandpa. In summer we like going to the park for a picnic.

We fly a kite and play with our dog, Its name is Wera. We are a friendly family.
