

Hi ! My name is Amanda and I' m 19 years old. I don' t live with my parents. I live with Roseanne. We are room-mates. We live in the same appartment. I study at university and Roseanne too. I study Business administration and Roseanne studies Computer science. We get on well . We like the same things so it is easy to live together. We take turns to clean the appartment. Another similarity : We are both vegetarian.

Yesterday was a special day for Roseanne. It was her birthday. We both went for dinner at a nice restaurant called Green Forest. It wasn' t a nice day because it was cold and it rained but we were both happy and we spent a great time. I bought Roseanne a book about a The Industrial Revolution . She was very happy with the present and she couldn' t wait to start reading it.

Roseanne is dating Tony but it is not a steady relationship yet. Yesterday Tony called her to wish her a happy birthday . Perhaps he sees him tomorrow. Perhaps he has a present for her.
