

# COMPARACIÓN DE FRACCIONES CON EL MISMO NUMERADOR Y DENOMINADOR

Ayuda al barco a encontrar su ancla. Para ello ten en cuenta:

- 1.- El camino te lo señalan las fracciones cuya comparación sea correcta.
- 2.- Recuerda: Que si el numerador es igual es mayor el que tenga el denominador más pequeño.
- 3.- Si el denominador es igual, es mayor el que tenga el numerador mayor
