

## Assignment 30

## How Many Times?

1.  $9 \times \underline{\hspace{2cm}} = 54$
2.  $10 + 10 + 10 + 10 = \underline{\hspace{2cm}} \times 10 = \underline{\hspace{2cm}}$
3. 4 times 10 = 5 times  $\underline{\hspace{2cm}}$
4.  $12 = \underline{\hspace{2cm}} \times 4 = \underline{\hspace{2cm}} \times 3 = 6 \times \underline{\hspace{2cm}}$
5. A box contains 20 fire-crackers. How many fire-crackers are there in 8 boxes?  $\underline{\hspace{2cm}}$
6.  $4 \times 5 = \underline{\hspace{2cm}} \times 2 = \underline{\hspace{2cm}} \times 4 = \underline{\hspace{2cm}}$
7. If  $* \times * = 49$ , what is  $*$ ?  $\underline{\hspace{2cm}}$
8.  $6 + 6 + 6 + 6 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$
9. See the figure and write the multiplication fact.  
 $\underline{\hspace{2cm}}$

10.  $(20 + 2) \times 2 = \underline{\hspace{2cm}}$
11. If 8 children can sit on one bench, how many children can sit on 50 benches?  $\underline{\hspace{2cm}}$
12.  $52 \times \underline{\hspace{2cm}} = 52 \times 5 \times 10$ .
13.  $\underline{\hspace{2cm}} \times 1 = 540$ .
14. Continue the pattern :  
80, 160, 240,  $\underline{\hspace{2cm}}$ ,  $\underline{\hspace{2cm}}$ ,  $\underline{\hspace{2cm}}$ ,  $\underline{\hspace{2cm}}$ .
15. A book contains 70 pages. Find the number of pages in 8 such books.
