**WRITING**

Write an opinion essay

-Topic: "**The Government should encourage people to save water**"

-Write 4 paragraphs

**FIRST PARAGRAPH:**

Explain the subject and give your opinion.

**SECOND PARAGRAPH:**

Write a paragraph for each reasoning. Include convincing facts.

**THIRD PARAGRAPH:**

Use an opposing viewpoint to reinforce your opinion

**CONCLUSION:**

Summarize your opinions with different words

-You can include this information or use your own ideas:

-people in our country don't appreciate the importance of water. -millions of litres are wasted every year. -government campaigns would help to reduce unnecessary water consumption.

- Water is a very important resource for various reasons. -we need to drink clean water to survive. -we need it to keep clean. -without water we cannot grow crops or raise animals for food. -The government should do more to make people realise this.

-water treatment processes cost a lot and use a large amount of electricity. -reduced water consumption would save energy and cut greenhouse gas emissions.

-the government should encourage people to save water. It would help to conserve this important resource for the future. -it would reduce the money and energy that is spent on water treatment each year.

**Remember to use the appropriate phrases**
