Part III Reading

Read the article. Then choose T for true or F for false for each statement.

My friends and family are changing their ideas about healthy food. We want a healthy way to eat. So we're on a "low-carb" diet.

Many people like "low-carb" diets. They say these diets are very healthy. On a low-carb diet you eat proteins, like fish, chicken, meat, and eggs. But you don't eat carbohydrates. That

means you don't eat bread, potatoes, pasta, or rice. It also means you don't usually eat foods with sugar. Fruit has sugar, so you don't eat many apples, oranges, bananas, or other fruit.

Does this sound crazy? I'm not sure. Every day more people are trying low-carb diets. And for many people, the results are great.

1. You eat lots of meat when you're on a low-carb diet. _____
2. People on a low-carb diet usually gain weight. _____
3. Bread, potatoes, and rice are proteins. _____
4. You don't eat much fruit when you're on a low-carb diet. _____

Read the article carefully and write T for true and F for false

Dear Bobby,

Hi! Jenny and I got to Vancouver three days ago. The first night we went to dinner at a Japanese restaurant. Jenny didn't like the fish, but I liked it. The next day we went to Granville Island. I saw so many nice things in the public market. Jenny shopped and bought many things. I wanted to buy things, but I didn't. Yesterday we walked to Stanley Park. It was a great day! We went bike riding. When we got tired, we stopped. We ate lunch and read for a few hours.

See you soon!
