The feudal system was similar to the modern idea of \_\_\_\_\_ houses. The king gave large estates to his \_\_\_\_\_. These people did not pay any \_\_\_\_\_ for their lands, but instead their “rent” was to provide the king with a number of knights who could serve in his \_\_\_\_\_. The \_\_\_\_\_ were able to provide \_\_\_\_\_ because they had the same type of arrangement with the latter. The knights got \_\_\_\_\_ from the tenants-in-chief in return for giving service for a number of days.
