 garbage trees time environment proud objects

Recycling is a _____ where something is _____ rather than thrown away. _____ items that are recycled include _____ and steel cans, glass, and _____. Recycling can be _____ and dirty work. For example, _____ objects have to be _____ from trash. Then the objects have to be cleaned. Afterwards, the _____ are turned into _____ that can be used by people and _____. Why should people bother to recycle even though it takes a lot of work?

Recycling helps _____ the earth. Recycling means less _____ in landfills. These are _____ where garbage is taken and buried. Recycling also helps _____ the earth's resources. For example, _____ use less _____ by recycling steel cans than by _____ new ones. Recycling paper saves _____ from being cut down. Trees are used to make paper.

Every _____ you are about to drop a _____ bottle in the garbage, stop and think. Is it worth _____ the earth? Your actions now can help preserve the _____ for generations to come. All you have to do is _____ that bottle into a recycling bin.

Get in the habit. Be _____ of recycling. Encourage others to recycle. You can make a _____!

CGE4 - Learner's Book - Unit 5 - Week 14 - Track 29
