Structure of Earth_Grade 7

Label the layers in the structure of the Earth.

mantle inner core crust outer core

Draw a line to match each layer of the Earth to its description.

continental crust •

oceanic crust •

mantle •

outer core •

inner core •

 Solid ball as hot as the surface of the Sun

Made of liquid iron and nickel

• The part of the Earth we live on

Where volcanic lava comes from

Layer directly under the oceans

Structure of Earth_Grade 7

Answer the questions.	
Which layer do we live on?	
Which layer generates Earth's magnetic field?	
Which layer is the hottest?	
On which layer does the crust float?
