Stella magazine commissioned YouGov, a research agency, to interview over 1,000 women in the UK about what they really think. Here are some of the results.

80% of women say that losing their health is their greatest concern, followed by putting on weight (52%) and losing their jobs (24%). It seems that British women aren't too happy with their bodies: 23% of women are on a diet now and 58% have **gone on a diet** in the past. Only 4% of women **do** more than 7 hours' **exercise** per week, while 21% do no exercise at all.

The biggest challenge for modern women is balancing home and work life (82%), followed by bringing up happy children (56%) and finding time for themselves (52%).

As for their love lives, 9% of women aged 45–54 met their husbands through the internet, and 49% of women believe that the best age to **get married** is between 25 and 29.

And what about the relationships between men and women? 59% think fathers should **take** more **responsibility** for their children. These women are also less than content with their husbands' efforts at home: 51% say they currently **do** over 75% of the **housework**. Despite this, over 70% of women would prefer to have a male boss than a female.

And their heroes? The woman they most admire is ex-Prime Minister Margaret Thatcher (7%), followed by the Queen (5%).
