

1. Listening:

1. In the year 2200 we will all wear electronic clothes with microchips in them so that we can talk to our friends wherever we are.
2. Clothes will be very light and warm to protect us from the cold sun.
3. We will be able to find everything on the Internet so we won't have to go to the city centre.
4. In year 2200, there won't be much water.
5. In future people will wear flat shoes because it will be easier to walk in the rubbish.
6. People will wear masks to protect themselves from air pollution.
