5- Lucy: I've just met an interesting guy at work.  
 Billy: Yes? Tell me ... (Wh-/he/do) \_\_\_\_\_?  
 Lucy: He's a systems analyst.

**READING. Read this text and circle T for true or F for false****5 x 0.4 = 2 marks**

Thomas Edison was born in Ohio in 1847. At age 11, he moved to Michigan where he lived all his childhood. School was difficult for Edison, but he learnt to love reading and conducting experiments from his mother who taught him at home. At age 15 he became a telegrapher, sending and receiving messages via Morse code, an electronically-conveyed alphabet using different clicks for each letter. Later he worked for the Union Army. Edison often had fun by taking things apart to see how they worked. Soon he decided to become an inventor. He invented the telegraph, the phonograph (to record and play back sounds) and the light bulb. He made significant contributions to X-ray technology, storage batteries and movies. He also invented the first talking doll. His inventions changed the world forever and still influence the way we live today.

1. This passage is about the invention of the telegraph.
2. Thomas Edison didn't always live in the same place.
3. His mother helped him with his studies.
4. He invented X-ray technology.
5. Thanks to Edison the world is different.
