THE QUINCEAÑERA

G. Read the passage and underline the 5 verbs and write the past and past participle of the following ver.

One of Latin America's traditions is called the **quinceañera**, which means 'fifteen-year-old birthday girl'. It is when a young girl turns 15 and she has a big party to celebrate. It is a fusion of local ancient culture and Spanish Catholicism. In 16th-century Spain, a girl turning 15 had to decide between dedicating her life to God or getting married. Back then, in line with the Catholic tradition, the girl would wear a white dress; however, girls now wear dresses of any color, pink being the most traditional one. Finding the right dress for your **quinceañera** is a big deal and a lot of time is put into. The dresses have lots of fabric. The party costs a lot of money.

The first part of the celebration is the religious ceremony at the church. Then at the birthday party, there's music, dancing and lots of food. Family and friends are invited to enjoy the special day. The father dances with his daughter and there is a modern dance by the birthday girl.

The **quinceañera** looks like great fun. It's done very different from how I celebrated my 15th birthday. Being 15 has so much more significance in Mexico than in England. I remember my 18th birthday being a big deal because that was when I could call myself an adult.

Latin American culture is very interesting. There is so much more to learn about, and I would like to visit someday to experience it in person and practice my Spanish on the locals!
