J08 EXTRA PRACTICE 24

1. CHOOSE THE CORRECT OPTION

If the climate changed ...

The Gulf Stream is a current of warm water which begins in Florida and travels across the Atlantic Ocean. As a result, countries on the west coast of Europe have warmer climates.

If there ¹ _____ (be) no gulf stream, life in Europe
² _____ (change) forever and countries like Great Britain
³ _____ (become) much colder, especially in the winter.
If the sea was colder, spring and summer ⁴ _____
(not / last) as long. Farmers ⁵ _____ (not / produce)
certain types of food and heating costs ⁶ _____ (go up).
If the Gulf Stream never ⁷ _____ (return), eventually
Europe ⁸ _____ (have) another ice age. As the world's
climate changes, some scientists believe this might actually happen.
