

Classmates, friends and family

Think of a friend, a classmate and a family member.

- What are they like? (how old; tall/short; friendly, lazy etc.)
- What do they like doing? (sports, free time activities)
- Is there anything special about them?
- Anything else about them that is interesting.

Example:

This is Billy. He's eleven years old. He's quite short. He doesn't like sports, but he loves computer games. His favourite game is the Sims. Billy is one of the weirdest kids in school. He thinks worms are cool! He often plays with them and one time I think he ate one. Gross!

Now it's time to write. Think of three people and write about them. Draw a small picture of them if you like.
(Tip: You can also write about one of the cartoon characters on this page if you want. Use your imagination!)
