

Nombre y apellidos:

Grupo:

1.- Choose the correct word and put it in each space:

- Poríferos
- Moluscos
- Anélidos
- Erizos de mar
- Medusas
- Anémonas
- Almejas, mejillón...
- Arañas
- Cnidarios
- Equinodermos
- Artrópodos
- Insectos
- Pulpo, calamar...
- Esponjas
- Corales
- Caracoles
- Lombrices
- Estrellas de mar
- Crustáceos
- Ciempiés y milpiés

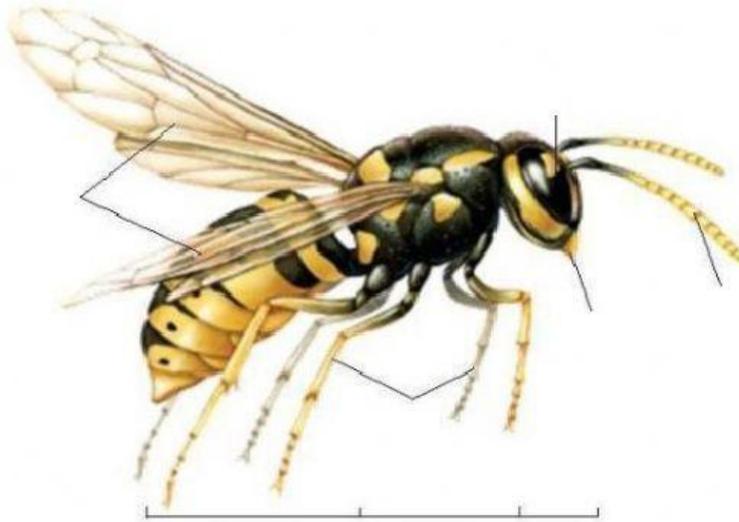

2.- Classify the next Molluscs in the group they belong to:

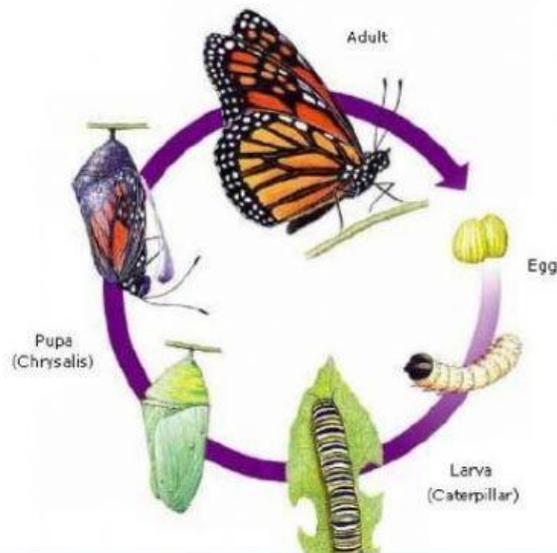

GASTROPODS
 BIVALVES
 CEPHALOPODS

3.- Complete the parts of the body of an Arthropod:

4.- Look at the picture and complete the text about insects metamorphosis:

Insect metamorphosis

Insectsmetamorphosis. They eggs like most invertebrates. In the case of flies, butterflies and many other, a larva that looks like worm comes out of the The larva of a butterfly or moth is called a

1. The larva grows and several times until it reaches its full size.
2. The larva then, produces a covering called where it encloses itself
3. Inside the pupa, the from larva to insect adult happen.
4. Once is completed, the adult insect from the pupa

5.- Complete the pictures about the different types of Arthropods:

[Blank]	[Blank]	INSECTS ARACHNIDS CRUSTACEANS MYRIAPODS
Abdomen	Cephalothorax	
		LEGS (6) ANTENNAE CHELICERAE LEGS (8) LEGS (10) WINGS HEAD THORAX ABDOMEN LEGS (OVER 10) CEPHALOTHORAX CLAWS TRUNK
Head	Antennae	
	Abdomen	
[Blank]	[Blank]	

6.- Complete with the group and an example of Echinoderms:
