

## SECOND PERIODICAL EXAM

School Year 2021-2022

### MATHEMATICS VI

Name: \_\_\_\_\_ Grade and Section: 6 – Turquoise

Teacher: Elizabeth C. Regala

**NOTE:** Read the directions carefully.

NOT following the direction is wrong.

WRONG SPELLING is WRONG.

I. Express the ratio in three ways. Use SLASH (/) in fraction and AVOID using space.

Given	Fraction	Colon	To
fries and burger	1.	2	3.
spaghetti and donut	4.	5.	6.
burger and ice cream	7.	8.	9.
chicken joy and cake	10.	11.	12.

donut and fries	13.	14.	15.
burger and chicken	16.	17.	18.
ice cream and spaghetti	19.	20.	21.
cake and hotdog buns	22.	23.	24.

**II. Identify whether the following are equivalent ratio. Write E for equivalent and X if it is not.**

\_\_\_\_\_ 25.  $3:4 = 6:8$

\_\_\_\_\_ 26.  $9:4 = 8:18$

\_\_\_\_\_ 27.  $24:8 = 9:3$

\_\_\_\_\_ 28.  $2:16 = 5:8$

\_\_\_\_\_ 29.  $4:150 = 2:75$

\_\_\_\_\_ 30.  $5:2 = 10:5$

\_\_\_\_\_ 31.  $1:3 = 2:6$

\_\_\_\_\_ 32.  $5:10 = 2:5$

\_\_\_\_\_ 33.  $6:2 = 12:4$

\_\_\_\_\_ 34.  $9:3 = 4:1$

\_\_\_\_\_ 35.  $6:3 = 6:3$

**B. Simplify the following ratio. Use slash (/). Ex. 4/5**

36.  $5/25 =$  \_\_\_\_\_

37.  $4/48 =$  \_\_\_\_\_

38.  $30/90 =$  \_\_\_\_\_

39.  $9/99 =$  \_\_\_\_\_

40.  $15/45 =$  \_\_\_\_\_

V. Solve for the missing term in each proportion. Write your answer on the space provided.

\_\_\_\_\_ 41-42.  $\frac{4}{10} = \frac{32}{n}$

\_\_\_\_\_ 43-44.  $\frac{15}{5} = \frac{n}{4}$

\_\_\_\_\_ 45-46.  $\frac{n}{3} = \frac{126}{18}$

\_\_\_\_\_ 47-48.  $\frac{35}{7} = \frac{25}{n}$

\_\_\_\_\_ 49-50.  $\frac{6}{12} = \frac{n}{6}$

"WISHING YOU A MERRY CHRISTMAS and A HAPPY NEW YEAR"
