ACTIVITY SHEET
Science 1
QUARTER 2-Week 5

Name: _____1-_____

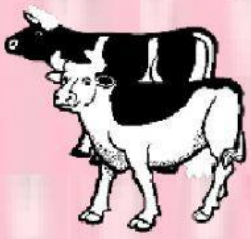

ENUMERATE THE NEEDS OF ANIMALS IN ORDER TO LIVE

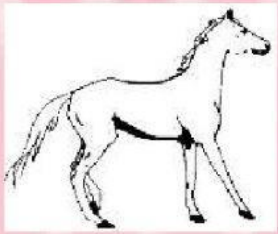

This Learning Activity Sheet is about identifying the basic needs of animals and demonstrating ways of caring them. After going through LAS, you are expected to identify things that the animal body needs when growing up and how they survived.

ANIMALS AND THEIR NEEDS

Are there times when you feel hungry or thirsty? Just like people, animals also need food and water. They also need air and a place to live.

Animals differ in the kinds of food they eat. Some animals eat only plants. They are called **herbivores.** They usually have sharp and flat teeth for cutting, grinding, and mashing plants. Cows, rabbits, and goats are herbivores.

Examples of Herbivores

Some animals eat only other animals. They are called **carnivores**. Carnivores usually have sharp teeth for tearing flesh. Lions and snakes are carnivores. Look at some examples below of carnivorous animals.

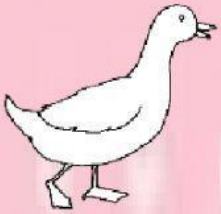

Tiger eagle crocodile

LIVEWORKSHEETS

Some animals eat both plants and animals. They are called **omnivores**. Many kinds of birds are omnivores. They eat plant seeds and worms. Pigs are also omnivores. Some examples of omnivores below.

Duck

chickens

dog

Some animals need to drink water. They use water to cool them down. For example, a carabao wallows in water to protect its skin from sunburn and have its body cool.

Animals need air. Have you noticed the bubbles in an aquarium? They come from an aquarium air pump. The pump is used to introduce oxygen into the aquarium water. Oxygen is the gas that people and animals need to stay alive.

Animals need shelter. A shelter protects animals from the rain and the heat of the sun. it also keeps them from being eaten by other animals.

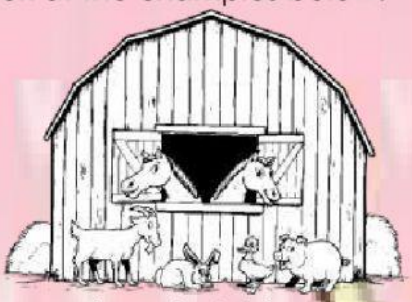

People provide shelter for their pets. Look at the examples below.

Dog's kennel

pig pen

horse's stable

LIVEWORKSHEETS

DO THESE: Performance Task (Video Presentation)

Find out: How do you care for your pet?
You will need: A picture of your pet.

Cut a picture of your pet and paste it here (Bond paper). Describe your pet. What are its needs? How do you care for your pet?

I. Direction: Write the letter of the correct answer on the blank.

___1. Which animal eats only plants?
a. cow
b. snake
c. spider

___2. What does a lion eat?
a. grass
b. meat
c. vegetables

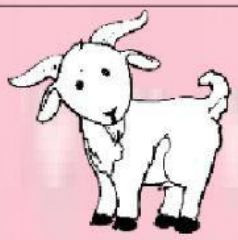

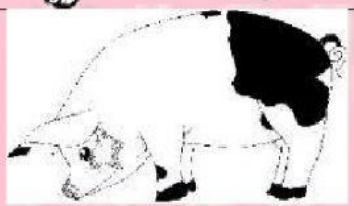

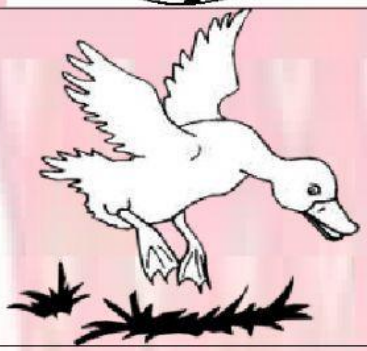

___3. Which animal is an omnivore?
a. chicken
b. rabbit
c. tiger

___4. Which of the following makes animals cool?
a. food
b. shelter
c. water

___5. What is the dog's shelter called?
a. fennel
b. kennel
c. kernel

LIVEWORKSHEETS

II. Direction: Tell if the given animal is a **herbivore**, a **carnivore**, or an **omnivore**. Select the correct answer.

1. 	Carnivore Herbivore Omnivore
2. 	Carnivore Herbivore Omnivore
3. 	Carnivore Herbivore Omnivore
4. 	Carnivore Herbivore Omnivore
5. 	Carnivore Herbivore Omnivore
