

## Simple Filter Model

Arrange the parts of the filter. Complete the diagram below by dragging the pictures correctly and writing its name.

The diagram shows a simple filter model. A blue plastic bottle with its bottom removed is inverted over a glass dish. To the right of the bottle's neck are four rectangular boxes for labeling. The top box is labeled 'rocks'. To the right of these boxes is a small rectangular box containing a pile of grey gravel. Below the bottle and dish are four piles of materials: rocks, sand, cotton, and gravel, each with a label underneath.
