Work sheet - Class -IV

Subject - English

Read the text and answer the questions:

Mrs. Curtis said, "Make sure you write this assignment down, everyone. It's important." "Mrs. Curtis," Linda said, raising her hand. "I can't see the assignment clearly." 1

Mrs. Curtis suggested, "Come up to the front of the room to copy it, Linda." Linda moved to the front of the room, copied the assignment into her notebook, and returned to her seat. When class was over, Mrs. Curtis asked Linda to remain. "I'm concerned, Linda, because it seems you're having trouble seeing the board. Am I right?" 2

"Sometimes," Linda admitted. "The school nurse will be checking everyone's vision tomorrow. You should probably tell her about it," Mrs. Curtis said. 3

Linda sat quietly in the school nurse's office. She had her vision checked. Now the nurse was writing the results on a form. "Do you think I need glasses?" Linda inquired. "You're definitely having difficulty seeing objects that are far away," the nurse answered. 4

"You'll want to give this form to your parents. Ask them to take you to an optometrist, who will check your vision. If you do need glasses, the optometrist will be able to help you find the right ones for you." "That doesn't sound so bad," Linda said

with relief. "It's not bad at all," the nurse explained. "Eye exams aren't painful, and you could end up seeing much more clearly." 5

The nurse at Linda's school noticed that Linda was having difficulty seeing objects that were far away. So she suggested that Linda get her vision checked. Linda took the nurse's report home and showed it to her parents. 6

"It looks as though we should make an appointment for you with an optometrist," her dad said with concern. "I think so, too," her mom agreed. "We need to make sure that you can see clearly." "The nurse told me that eye exams aren't painful," Linda said. 7

"She's right," her dad reassured her. "And if you need glasses, you will get to choose frames that you like. There are lots of styles, so you will have plenty of **options**." 8
