Ben's Class Project

What's the project? We're making models for a model village! I'm making a baker's and my friend Kate is making a newsagent's. The model village looks great. There are trees, and there's a bridge over the river and a zebra crossing.

Next week I'm going to make a train station and a museum. There isn't a post office so Kate is going to make a model post office. There are some model people but there aren't any animals so I'm going to make some cows and horses too.
