- If money is not a factor, do you think that everyone is capable of getting a PhD? Explain your opinion.

Activity 4: Read

Studying Abroad

Studying abroad was just a dream for many people 50 years ago, but now it is a reality for several students. Many universities offer study abroad programs for a semester or a year. Universities establish agreements with foreign schools and are able to do a student exchange program. For example, if a university in Mexico has an exchange program with a university in Canada, they can send Mexican students to study in Canada, and Canadian students can go study in Mexico. The students take classes related to their major while earning credit for their home university. Most of these students live with a **host** family for the time they are there, where they get to experience daily life in the host country's culture. Learning in a different environment opens your eyes to many new things. Living in another country doesn't only teach you academic lessons, but life lessons as well. Being far away from home isn't easy, but it's worth it. It is very important to take advantage of any of these opportunities that your university may offer you. It is the chance of a lifetime, and the memories you create will last forever. Students never **regret** doing it!
