

**Label the atmosphere.**

**Decide which part of the atmosphere we are talking about below.**

1. It has little oxygen.
2. It has air.
3. It protects us from the sun's harmful rays.
4. It's where we live.
5. It has rainwater.
6. It helps keep the stable temperatures of Earth.

**Nitrogen**

**The gas we need to breathe.**

**Oxygen**

**Like carbon dioxide and water vapor.**

**Other gases**

**The most abundant gas.**
