Bitia moves to Canada

Bitia lives in Mexico but last month, she won a scholarship to study in Toronto, Canada. Her mother is very happy about her daughter but she says that moving to another country is something very difficult, customs & traditions are different, people are different, houses are different, economy is different, etc.

Bitia is going to move next week and she is going to ask some people to help her with some activities.

1.-Listen and Match the people and the activity to discover who is going to help her.

Her mother	change money for CAD
