

## 1.35

The next time you fly from Hong Kong International Airport, make life easier – take the Hong Kong Airport Express. You can get from the centre of Hong Kong to the airport in just 24 minutes – and, even better, you can get a free shuttle bus from your hotel directly to the station.

Our fast, comfortable trains depart every ten minutes, from five in the morning until midnight. At the station, you can check in your luggage and we'll take it to the airport for you, all the way to the plane. If you choose to check in at the airport, you can use our free porter service to help you with your luggage.

But why not check in at the station and get your boarding pass one full day ahead of your flight, so you can just relax on your last day in Hong Kong? Or you can spend your last day on last-minute shopping, pack all your purchases and check in at the station just 90 minutes before your flight.

For more information, go to the Hong Kong Airport Express website.
