I am very much worried about my mother these days. Her health has been 1. \_\_\_\_\_ for some time now. I think it is the 2. \_\_\_\_\_ of Covid -19, which she caught about six months ago. I took her to the doctor and he 3. \_\_\_\_\_ her to eat a lot of vegetables and fruit. He said they contain a lot of 4. \_\_\_\_\_ vitamins and proteins the her body needs. He also told her to use only 5. \_\_\_\_\_ amount of salt because too much of it can cause high blood pressure. She asked her to avoid sweets because they can cause diabetes.
