II. Using the words given to write sentences using

"The + comparative + S + V, the + comparative + S + V."

- hard**/ he spins/, / **dizzy**/ you feel.
⇒ *The **harder** he spins, the **dizzier** you feel.*
- fast**/ he rides his bike on the road/, / **dangerous**/ it is.
⇒
- much**/ force I use/, / **high**/ the swing goes.
⇒
- hard**/ you study for the test/, / **easy**/ the test will be for you.
⇒
- big**/ the dog is/, / **scary**/ it is.
⇒

III. Read and choose the best answer

TURN IT OFF

A simple way to protect the environment is to remind yourself to "Turn it off". What does that mean? When you leave a room, turn off the lights. When you're done watching TV, turn it off. While you're brushing your teeth, turn off the faucet. And if you're waiting in a parking lot, ask the driver to turn off the car. These are great ways to save money. But they're also great ways to save resources like electricity, water, and fuel, and that's important. Do this every day because every day is Earth Day!

- What did the text say you should do when you leave a room?
A. turn off the lights B. open a window C. close the door
- Which sentence is true?
A. Gas does not cost money. B. Saving water is not important.
C. Turning off lights saves electricity.
- What is this text mainly about?
A. how faucets work B. saving resources such as water and fuel
C. watching TV
