THE BEATLES - STILL GOING STRONG

Over fifty years after they last played together (August 1969), the Beatles are still one of the most popular rock groups in the world! During the six years of their existence, they led a revolution in music. Over half a century later, their records still sell in millions every year.

Here you are a picture of the members of the Beatles. Write down their full names (name+surname). If you do not know them, do some investigation on the web.

LIVEWORKSHEETS

All over the world, teenagers know the tunes, and often some of the words too, of the Beatles' most famous songs. ***Yesterday, Penny Lane, Hey Jude*** and ***When I am Sixty Four*** are among the best known.

Which of these 4 songs was composed by Paul McCartney for John Lennon's son?

The word *Beatles* was invented by the musicians as a homonym of the word *beetles*. Beetles are small black insects. *Beat* means rhythm, so put the two together and you make *Beatles*.

Next, you are a list of hits. Some are by the Beatles, others are not. If you do not know them, do some investigation on the web. The activity consists of writing YES if the song is by the Beatles, and NO if it isn't.
