II. Read the passage carefully and write True or False for the sentences below. 1 pt

Imagine thousands of colorful butterflies in the sky. They are orange and black with enormous wings. These are the famous monarch butterflies. Every year, they fly more than 4,500 kilometers from Canada and North America down to the mountains of Mexico. It is the longest journey of any butterflies.

Their journey usually starts in September or October. They can sometimes fly more than 100 kilometers in one day and they often fly very high too – perhaps 1.6 kilometers!

Sadly many don't survive the long and dangerous journey because they become very cold. Monarchs are the most famous butterflies in North America. There are books, TV programs and websites about them. There's an amazing 3D film too – it's called Flight of the Butterflies.

1/ Very year the monarch butterflies have a long journey high in the sky. _____

2/ The butterflies have got very small wings. _____
