

Name:

Class:

Locations above the level of the sea are recorded as **positive integers**. Locations that are below the level of the sea are recorded as **negative integers**.

Drag each **elevation** to either the plane or the submarine. Drag elevations that are above sea level to the airplane. Drag elevations that are below sea level to the submarine.

in ascending order

The diagram is split horizontally. The top half is light blue and contains an illustration of a grey airplane flying to the left. Below the airplane are four dashed rectangular boxes. The bottom half is a darker blue and contains an illustration of a grey submarine. Above the submarine are four dashed rectangular boxes. A small green island is visible on the horizon line between the sky and water.
