2021-2022 ACADEMIC YEAR, ... SECONDARY SCHOOL, 1st TERM 2nd ENGLISH EXAM FOR 7TH GRADERS

NAME & SURNAME: ..... **NUMBER:** ..... **CLASS:** .....

1 Read the text and answer the questions. (5×4=20 pts.)

The Giant Pandas are a member of bear family, but they are bigger than bears. They live in the forests on the mountains of Central China. These beautiful animals are white with black fur around their ears, shoulders and legs. They have big heads and heavy bodies. They can weigh up to 150 kg and they are about 1,5 m tall. These animals spend most of their day eating bamboo. They can eat 10 kg of bamboo a day. They can live for 20 years. They are friendly animals and they don't attack people.

The giant pandas are mammals and they usually have one baby every two or three years. Baby pandas can't survive easily, so they stay with their mothers for the first 18 months of their life. Unfortunately, the giant pandas are on the list of endangered animals because people hunt them for their fur and give harm to their habitats. There are only 1600 pandas living in the wild and about 160 living in the zoos. If we don't protect them, they will disappear.

1. Where do the giant pandas live?

.....

.....

2. What do they eat?

.....

.....

3. Are the giant pandas carnivorous or herbivorous?

.....

.....
